

Aviation Curriculum (part-time)

Valid from Autumn Semester 2025/2026 / 21.02.2025

Semester 8			Bachelor Thesis: Aviation DE/EN 12	Specialisation Module 2 4	Specialisation Module 4 4	Specialisation Module 6 4						
Semester 7			Project Thesis: Aviation DE/EN 6	Specialisation Module 1 4	Specialisation Module 3 4	Specialisation Module 5 4		Optional Module Cross-Curricular 4				
Semester 6	Elective Module Context 2		Aviation Projects 4 DE 4			Elective Module 8 4	Infrastructure - Aerodromes DE 4	Materials Technology for Aviation DE 4		Numerics DE 4		
Semester 5	Elective Module Context 2	Elective Module Context 2	Aviation Projects 3 DE 4			Elective Module 7 4	Infrastructure - Airspace and Air Navigation Services DE 4			Stochastics and Statistics DE 4	Physics 3: Atmospheric Physics and Applied Meteorology EN 4	
Semester 4	Wahlpflichtmodul Kommunikation 2		Aviation Projects 2 DE 4	Aircraft Systems-Propulsion Systems and Performance EN 4	Aircraft Systems-Electrotechnics and Electrical Systems EN 4	Aviation Systems Engineering EN 4					Physics 2 DE 4	
Semester 3	Wahlpflichtmodul Kommunikation 2		Aviation Projects 1 DE 4	Aircraft Systems-Structure and Mechanical Systems EN 4	Human Factors EN 4	Safety Risk Management – Quality Management DE 4					Physics 1 DE 4	
Semester 2	Communication Compet. Basic 2			Principles of Flight EN 4	Business Administration EN 4	Computer Science Tools DE 2	CAD for Aviation DE 2			Analysis 2 DE 4	Linear Algebra 2 DE 4	
Semester 1	Intercultural Communication and Management EN 2			Aviation Basics DE 4	Aviation Law DE 4		Computer Science Programming 1 DE 4			Analysis 1 DE 4	Linear Algebra 1 DE 4	
	Context Modules		Project Modules	Subject-Specific Modules				Mathematics and Natural Science Modules

Designation in English

During your fourth year of study, you will choose one of the following three specialisations:

Technical Engineering			
Semester 8	Aircraft Systems– Flight Propulsion EN	Aircraft Systems– Structural Testing and Repairs DE	Flight Mechanics and Simulation EN
Semester 7	Aircraft Systems– Control Systems EN	Advanced Mechanics EN	Systems Reliabili- ty, Availability, Maintainability and Safety EN

Operational Engineering			
Semester 8	Aviation Management EN	Traffic Systems Operations DE	Infrastructure - Integration DE
Semester 7	Flight Operations EN	Human Factors in Engineering DE	Systems Reliabili- ty, Availability, Maintainability and Safety EN

Airline Transport Pilot			
(successful completion of the aptitude test as a commercial pilot required)			
Semester 8	Airline Transport Pilot Preparation 3 DE	Airline Transport Pilot Preparation 4 DE	Airline Transport Pilot Preparation 5 DE
Semester 7	Flight Operations EN	Airline Transport Pilot Preparation 1 DE	Airline Transport Pilot Preparation 2 DE
