

We warmly invite you to participate in the fifth edition of the

# Academic Poster Session

*16 April 2026, 13:00-15:00, HSG SQUARE*

This year, we are celebrating the fifth anniversary of the Academic Poster Session. Join this special event and present a poster on your research related to topics around responsibility & sustainability (e.g., SDGs, positive impact, responsible leadership, etc.). Get inspired by exchanging ideas and approaches with your colleagues, and find exciting opportunities for future research collaborations!

You can **contribute** a poster on a recent publication or a work in progress, even if you cannot join the session in person.

For the first time, we are opening up a **second track** to the session: You can also submit a poster on **innovative and impactful teaching formats** relevant to the topic.

Please indicate your interest to hand in a poster by **March 25** via [this forms](#) and submit it as PDF-file by **April 9** at latest.
