***Academia-Industry-Training (AIT) India** aims to support scientists in transforming their applied research into market application and discovering their entrepreneurial potential.

By connecting scientists from top institutions in Switzerland and India, the program promotes an international network and enables access to one of the most promising markets and intellectual capital in applied research.

This program is offered by Venturelab, Swissnex India, and the Leading House South Asia and Iran.

Seismohealth

Deploying AI to prolong the life of buildings and bridges.

Reimagining surgical training with smart sensors, AI, and haptics

SOLAXER

Receivers for solar heat-powered processes

AI-based system to audio detect wildlife in real-time

Composite bipolar plates for fuel cells and electrolysis.
