

Internationalization of the Curriculum: *Moving ahead together*

17-18 November 2022, Campus Est Lugano-Viganello

Description

Internationalization of the curriculum (IoC) is a transformative process of higher education that begins, first and foremost, with a commitment. In this event, four universities in Switzerland (BFH, HES-SO, SUPSI, ZHAW) report on their joint commitment to advance IoC in Swiss higher education in a systematic and impactful way.

Programme

Together with invited guest speakers from different parts of the world, participants will reflect on, and exchange experiences about, the potential and challenges involved in making internationalization a formal component of higher education curricula. This includes a conversation about how we can move on from intention to action and how we can get financial support for innovative initiatives. Two keynote speeches and parallel interactive sessions for exchange will headline the event. The event is open to all stakeholders and colleagues interested in the topic and will allow time for interaction and networking.

Speakers

Eva Haug, Amsterdam University of Applied Sciences
Prof Betty Leask, La Trobe University, Melbourne
Dr Amit Marantz-Gal, Sapir College, Israel
Maria Stergiou, Movetia, Switzerland

Venue:

Polo universitario Lugano – Campus EST
