

Online-Respeaking – New Options in Switzerland

## SUBTITLING FOR TV

- 50% of all programms in Swiss public Television (live and prepared)
- 30 years subtitling on TV
- Services also in live, in real time and ca. 29'000 hrs per year (increasing)
- re-speaking since 2008 (9 years)
- Multilingual teams in 4 branches (Zürich, Geneva, Bienne, Comano)
- Cloud technology in headquarter (Bienne)

## **X RESPEAKING AS SPEECH-TO-TEXT REPORTING**

- Voice-to-text-transcription, almost word by word
- Often used in education, especially in university and higher education
- Almost word by word live transcription
- Readable on tablet, laptop, mobile phone or AR glasses
- Available in (Swiss) German, French, Italian and English

## **×** LIVE-TEXT FOR EDUCATION

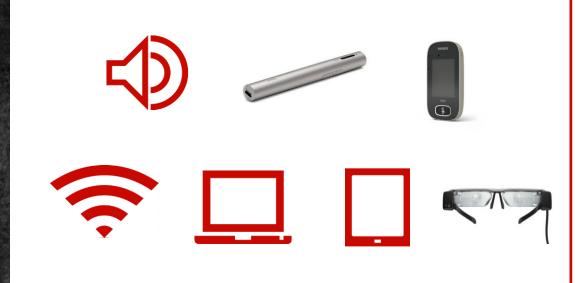

While using the AR glasses and watching the teacher and the board it is not necessary to look up and down to the tablet...

- Fair understanding in mother tongue and in visually supported subjects
- Problems in understanding in foreign languages (increasing!) and in big groups (noises!)
- Special need: Swiss German
- Live-text as additional aid
- Necessary very often at university
- AR glasses for watching and reading the same time

- Sound/microphone (e.g. via My Link / Phonak)
- Internet (WiFi/mobile network)
- Reading devices: e.g. tablet/mobile phone
- Additional use of AR glasses
- ASR (Dragon naturally speaking) for respeaker

## **X** TRAINING OF RESPEAKERS

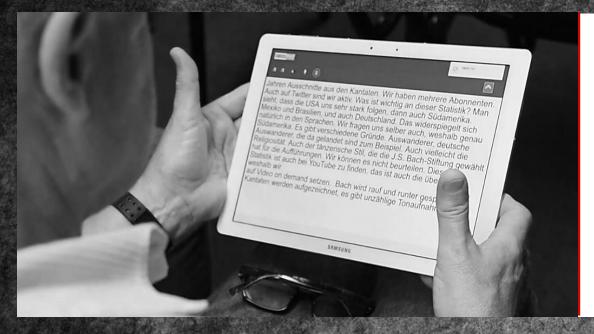

- Training of respeaking at ZHAW as one module
- "On the job training" e.g. for TV-subtitling
- Additional training for online-respeaking
- Options for foreign language interpreters
- Many respeakers double qualified
- Possible in different languages

- Mobile and flexible
- Without ostentation (important for young people)
- Modern stylish devices
- Text as support for learning after the sessions
- Multilingual services available
- Respeaker qualifications on high level
