

RakaS 2.0 – Keyword Index

The key word index helps to allocate and locate rooms, as well as their possible uses, in relation to the categories proposed in the [RakaS 2.0 Illustration of room categorisation system](#)*. The list is alphabetical and refers to the corresponding number in the RakaS overview. The selection of terms is based on the results of the research project with the project partners from the hospitals, all of whom are experts from different departments, including those related to space utilisation, real estate, IT and processes.

*the corresponding definitions are listed in the document [RakaS 2.0 Tabular listing of room categorisation system](#).

A ccommodation rooms	1.1.1 accommodation rooms
