

Modulübersicht MSc ENR

Master of Science in Umwelt und Natürliche Ressourcen

4. Semester	<table border="1"> <tr> <td>Double Degree Program</td> <td colspan="8"></td> </tr> <tr> <td>30</td> <td colspan="8"></td> </tr> </table>									Double Degree Program									30								
Double Degree Program																											
30																											
3. Semester	<table border="1"> <tr> <td>Master Thesis</td> <td>30</td> </tr> </table>		Master Thesis	30	<table border="1"> <tr> <td>Summer School MSc ENR</td> <td>4</td> </tr> </table>			Summer School MSc ENR	4					<table border="1"> <tr> <td>Advanced Spatial Analysis Uni ZH</td> <td>3</td> </tr> </table>		Advanced Spatial Analysis Uni ZH	3										
Master Thesis	30																										
Summer School MSc ENR	4																										
Advanced Spatial Analysis Uni ZH	3																										
2. Semester			<table border="1"> <tr> <td>Behavioral Change</td> <td>3</td> </tr> </table>	Behavioral Change	3	<table border="1"> <tr> <td>Environmental Mediation</td> <td>3</td> </tr> </table>	Environmental Mediation	3	<table border="1"> <tr> <td>Global Economic Geographies of Agriculture and Food Systems Uni ZH</td> <td>6</td> </tr> </table>	Global Economic Geographies of Agriculture and Food Systems Uni ZH	6	<table border="1"> <tr> <td>Natural Resource Management in Urban Areas</td> <td>3</td> </tr> </table>	Natural Resource Management in Urban Areas	3	<table border="1"> <tr> <td>Natural Resource Management in Emerging Economies</td> <td>3</td> </tr> </table>	Natural Resource Management in Emerging Economies	3	<table border="1"> <tr> <td>Natural Resource Management in Mountain Areas</td> <td>3</td> </tr> </table>	Natural Resource Management in Mountain Areas	3	<table border="1"> <tr> <td>Patterns and Trends in Environmental Data</td> <td>3</td> </tr> </table>	Patterns and Trends in Environmental Data	3	<table border="1"> <tr> <td>Individual Specialization Module B</td> <td>5</td> </tr> </table>	Individual Specialization Module B	5	
Behavioral Change	3																										
Environmental Mediation	3																										
Global Economic Geographies of Agriculture and Food Systems Uni ZH	6																										
Natural Resource Management in Urban Areas	3																										
Natural Resource Management in Emerging Economies	3																										
Natural Resource Management in Mountain Areas	3																										
Patterns and Trends in Environmental Data	3																										
Individual Specialization Module B	5																										
	<table border="1"> <tr> <td>Project Work in Research Units 2</td> <td>6</td> </tr> </table>	Project Work in Research Units 2	6	<table border="1"> <tr> <td>Environmental Ethics</td> <td>3</td> </tr> </table>	Environmental Ethics	3	<table border="1"> <tr> <td>Environmental Economics</td> <td>3</td> </tr> </table>	Environmental Economics	3	<table border="1"> <tr> <td>Agriculture for the Future</td> <td>3</td> </tr> </table>	Agriculture for the Future	3	<table border="1"> <tr> <td>Advanced Life Cycle Assessment and Ecodesign</td> <td>3</td> </tr> </table>	Advanced Life Cycle Assessment and Ecodesign	3	<table border="1"> <tr> <td>Aquaculture Systems</td> <td>3</td> </tr> </table>	Aquaculture Systems	3	<table border="1"> <tr> <td>CO₂ Management in Companies and Local Authorities</td> <td>3</td> </tr> </table>	CO ₂ Management in Companies and Local Authorities	3	<table border="1"> <tr> <td>Remote Sensing for Ecology</td> <td>3</td> </tr> </table>	Remote Sensing for Ecology	3	<table border="1"> <tr> <td>Individual Specialization Module A</td> <td>3</td> </tr> </table>	Individual Specialization Module A	3
Project Work in Research Units 2	6																										
Environmental Ethics	3																										
Environmental Economics	3																										
Agriculture for the Future	3																										
Advanced Life Cycle Assessment and Ecodesign	3																										
Aquaculture Systems	3																										
CO ₂ Management in Companies and Local Authorities	3																										
Remote Sensing for Ecology	3																										
Individual Specialization Module A	3																										
1. Semester	<table border="1"> <tr> <td>Project Work in Research Units 1</td> <td>6</td> </tr> </table>		Project Work in Research Units 1	6	<table border="1"> <tr> <td>Sustainability Science</td> <td>3</td> </tr> </table>	Sustainability Science	3	<table border="1"> <tr> <td>Agroecology and Food Systems</td> <td>6</td> </tr> </table>	Agroecology and Food Systems	6	<table border="1"> <tr> <td>Biodiversity and Ecosystems</td> <td>6</td> </tr> </table>	Biodiversity and Ecosystems	6	<table border="1"> <tr> <td>Ecological Engineering and Renewable Energy</td> <td>6</td> </tr> </table>	Ecological Engineering and Renewable Energy	6				<table border="1"> <tr> <td>Research Methods</td> <td>15</td> </tr> </table>	Research Methods	15					
Project Work in Research Units 1	6																										
Sustainability Science	3																										
Agroecology and Food Systems	6																										
Biodiversity and Ecosystems	6																										
Ecological Engineering and Renewable Energy	6																										
Research Methods	15
