Compliance Cockpit Simulator

Experience compliance in an authentic setting!

A unique way of introducing compliance into everyday business practice.

HOW EMPLOYEES CAN BENEFIT

Employees experience competition law as it is applied in practice and witness the economic benefits first-hand.

- **Strategy:** Develop a compliance strategy and plan its step-by-step application.
- **Implementation:** Using a simulated business game setting, put compliance measures into practice and experience critical situations as if they were for real!
- **Success:** See how efficient compliance with competition law pays economic dividends in the long run.

HOW BUSINESSES CAN BENEFIT

Putting competition law compliance into practice helps draw employees closer together and assists them in understanding the big picture.

- **Training:** Understand compliance better by interacting directly in this practice-oriented simulation
- **The big picture:** See the economic effects of compliance and its importance in day-to-day business life
- **Success:** Employees are motivated to implement basic legal and business principles
