Certificate Program at a Glance

Professional Administration of Intellectual Property

BENEFITS

Intellectual property (IP) is a company's most valuable asset. This certificate program is designed and beneficial for:

- Employers – paralegals assist and support lawyers, patent attorneys, and the operational management of companies, organizations, institutions and law firms, making a significant contribution to efficiency.
- Participants – they gain a fundamental understanding of IP and IP management, as well as comprehensive insights into practical aspects and become more skilled at operational procedures.

MAIN FEATURES

This program is aimed at professionals working in the legal and IP departments of companies, organizations, and institutions as well as in law firms, patent offices, and public administrations.

The course is hybrid (Winterthur and online). All classes are taught in English and take place on Fridays and Saturdays. There will be exclusive insights into the activities of the IPI.
